WHY

Almost everything you don't do has no good reason for it. Almost everything you don't do is the result of:
fear / inertia / lack of someone asking "Why not?"

NOT

#Hack your school:

Business schools are **responsible** for future

unicorn leaders and should

use entrepreneurial ecosystem

collaboration better - as a **source** of **inspiration,**

hub of **innovations,**

more updated **curriculum** and live **cases,**

but also as a potential **revenue** stream for
professors & schools also.
