

Emerging Markets ESG publishes second semi-annual survey of gender diversity of Polish corporate management and boards

In January 2014 [Emerging Markets ESG](#) published a second semi-annual survey of gender composition of management boards and supervisory boards of the twenty largest companies listed on the WIG20, the main, capitalization-weighted, index of the Warsaw Stock Exchange (WSE). This second survey analyzes data as of December 31, 2013. The inaugural survey analyzed data as of June 30, 2013. The survey documents that women represent nine percent of management boards and 15% of supervisory boards of WIG20 companies on the record date of December 31, 2013. In addition to presenting data about gender diversity in senior management and on corporate boards of the largest listed companies in Poland, the survey also reviews recent policy, regulation and research in Poland and across the European Union (EU).
